PIECES OF MEMORY

The MH17 disaster has made great impact in human's air crash history. 298 passengers and 16 crew were dead, most of them from Dutch, Australia, Malaysia.
The moment when the missile hit the plane, there was a great boom at the sky, with energy and fire. The big plane broke up into several pieces, fell into the ground. From a whole thing to pieces, we want to use these kind of scene to makes people remind the moment when the plane fall.
The flying pieces in the sky will be in means of the refugee in this disaster. When people in the ground up their head, they can feel this kind of pieces, even through this machine.
At the end, there is a kind of church, and silent space. After crossing the whole park, seeing some real scene of the site, people began to think about the real meaning of life.
